Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Radio advertisements, customer newsletters and newspaper advertisements are the primary resources used to market our cellular services.

Methodology for Functionality Levels

Used handset specification sheets to determine functionality levels.

Report Remarks

Cellular service is not a large revenue gaining product for this company. It is difficult to keep a large stock of handset inventory due to the low level of activity for this product. In many instances, a handset is purchased based on the customers request for a make and model.
